IN THE PRESENCE OF THE AUTHOR

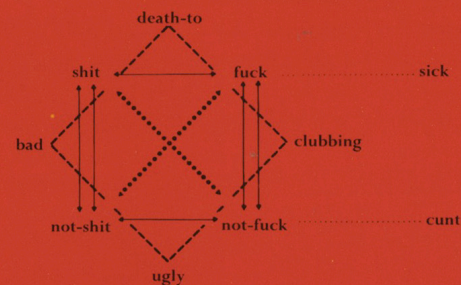

Dennis Cooper's Inside Out is a fantasy theme park set inside the author's skull where all the rides are works of fiction.

Curated blind by Dennis Cooper as a wish-list of instructions, confessions, fantasies and ideals, the author is turned into a character, the sole subject of a hybrid nightclub that is a (literal) "headspace" of our own imagining, a brainchamber where multiple twisted dimensions of film, video, art and sound describe the author's mind as we imagine it, exposing the fiction of a writer and his writing of fiction.

Dennis Cooper is an American Author, who has just completed his five-novel cycle - *Closer, Frisk, Try, Guide, Period* - to international acclaim.
